CONCEALED DRYWALL DOUBLE RABBIT SLEEK CONCEALED FRAME DESIGN

Durability

Design

Electrified

Concealed

- Concealed Installation
- Expedited Delivery
- Post-Drywall efficient Installation

Die-Mitered Multi-Tab
Corner Assembly

Perforated frame for
drywall mudding

Adjustable
Compression
Anchor

7-Gauge Hinge

Unequal Double
Rabbeted Profile

18-Gauge A40
Galvanneal Steel

Additional Options:

- Paintable galvanneal (unprimed) finish
- Concealed preps & electrical preps
- 16-Gauge A40 galvanneal steel

Complies with
ANSI A250.8

Canadian Industrial Design Registration No. 217,767

1. Durability and Security

Robust Construction: Commercial steel frames are crafted from high-strength steel, ensuring they can endure heavy use and resist impacts. This makes them ideal for high-traffic areas and environments where durability is crucial.

2. Low Maintenance

Resilient Surface: The steel construction resists dents, scratches, and rust, ensuring that the frames maintain their appearance and functionality over time. This durability reduces the need for frequent repairs or replacements.

3. Energy Efficiency

Cost and Environmentally Friendly: By improving energy efficiency, these frames contribute to lower heating and cooling costs, offering long-term savings. Additionally, their energy-efficient design supports environmental sustainability by reducing energy consumption.
