

Diamond PLUS X2 **Series**

**Internal steel reinforced
doors with welded edges**

DIAMOND PLUS X2 SERIES

INTERNAL STEEL REINFORCED
DOORS WITH WELDED EDGES

Fire Rated *

- Up to 3 hours
- Singles/Pairs

LEEDS Certification for Steel *

Thermal Value*

- R Value = 1.90
- U Value = 0.53
-

Durability

Design

Electrified

- Enhanced strength and durability
- Torsion-resistant vertical support
- Designed for demanding environments

Closer Reinforcing →

Steel Ribs Laminated →

Voids Filled with Sound
Deadening Roxul →

Fully Welded Beveled edges →

7-Gauge Hinge →

Reinforcing 16-Gauge →

A40 Galvanneal →

• Complies with
ANSI A250.8

Additional Options:

- G90 galvanized steel
- 14 or 16-gauge A40 galvanneal steel
- Specialty finishes
- Window and louver cutouts
- Custom sizes and hardware configurations

1. Durability and Security

Robust Construction: Commercial steel doors are crafted from high-strength steel, ensuring they can endure heavy use and resist impacts. This makes them ideal for high-traffic areas and environments where durability is crucial.

2. Low Maintenance

Resilient Surface: The steel construction resists dents, scratches, and rust, ensuring that the doors maintain their appearance and functionality over time. This durability reduces the need for frequent repairs or replacements.

3. Energy Efficiency

Cost and Environmentally Friendly: By improving energy efficiency, these doors contribute to lower heating and cooling costs, offering long-term savings. Additionally, their energy-efficient design supports environmental sustainability by reducing energy consumption.

Applicable Standards:

- ASTM-E152
- CAN/ULC-S104
- NFPA-252
- UL-10B
- UL 10C
- NFPA-80
