7-Gauge Hinge
Reinforcing

16-Gauge A40
Galvanneal Steel

Complies with
ANSI A250.8

Additional Options:

- Custom sizes and hardware configurations
- Single rabbet
- Equal rabbet profile
- Specialty finishes
- 16-Gauge A40 galvanneal steel

Applicable Standards:

- ASTM-E152
- CSFM-43.7
- CAN/ULC-S104
- NFPA-252
- UBC-43-2
- UL-10B
- UL 10C
- NFPA-80

1. Durability and Security

Robust Construction: Commercial steel frames are crafted from high-strength steel, ensuring they can endure heavy use and resist impacts. This makes them ideal for high-traffic areas and environments where durability is crucial.

2. Low Maintenance

Resilient Surface: The steel construction resists dents, scratches, and rust, ensuring that the frames maintain their appearance and functionality over time. This durability reduces the need for frequent repairs or replacements.

3. Energy Efficiency

Cost and Environmentally Friendly: By improving energy efficiency, these frames contribute to lower heating and cooling costs, offering long-term savings. Additionally, their energy-efficient design supports environmental sustainability by reducing energy consumption.
